# one<sup>®</sup> eco

**The best compromise between sustainability and safety.**

**The entire bobike one<sup>®</sup> range is greener.**

Without compromising safety and keeping the same standards, all Bobike one<sup>®</sup> footrests and colored back covers are now made from 100% recycled material and are 100% recyclable.

But with the goal of turning the One<sup>®</sup> even more sustainable we've launched the bobike one<sup>®</sup> eco model which incorporates 30% of recycled raw material in the exterior shell, creating a unique seat.

Besides that, we've changed all the One<sup>®</sup> packaging making it more efficient by reducing disposable items and ink.

The packaging is also now produced with FSC<sup>®</sup> materials. The full production process was also revised to make it more ecological and therefore reduce the CO2 emissions during the One<sup>®</sup> production.

Component by component, step by step we are moving towards a more sustainable future.

# Bobike poncho

Multifunctional thermal child and seat cover to keep your baby warm and dry

The poncho has a thermal fleece lining, is completely wind- and waterproof and has a stowaway hood for your child that offers plenty of space to wear over a helmet. Reflective details ensure that you and your child are extra visible in the darker days of the year.

When the child is not in the seat you can easily adjust the poncho so it functions as a rain cover for the seat.
