# WHO WE ARE

Ursus SpA is an Italian company, located in Rosà (Vicenza), which has been specializing for over 50 years in the field of metal manufacturing and components for bicycles.

At the beginning of the 2000s the company's business also opened up to the world of racing bikes and mountain bikes with the production of wheels and other high-end components.

A successful and effective experiment enabled Ursus to enter the world of professional cycling and it now collaborates with various professional road bicycle racing teams.

## A GLOBAL COMPANY

**We are Italians:** with a 100% production in Italy. Our fathers started precision machining metals for cycling appliances 55 years ago. They taught us the value of expertise and how Passion was the essence of their finest projects.

**We are Europeans:** by sharing our technical knowledge with international partners and pro riders, we specialized ourselves over the years

in production of high-end components for cycling.

**We are worldwide:** Customer Satisfaction and Innovation seen as essential elements of business, opened us the doors to internationality. We create customer-oriented products and services ready to be marketed all around the world.

## CUSTOMIZED SOLUTIONS

Over the years, Ursus has developed a specific know-how in creating and producing customised design solutions that support illustrious bike manufacturers all around the world.

The notoriety of the Ursus name in this field is rewarded by the satisfaction and the trust of our customers.

## SUSTAINABILITY

Energy saving and environmental protection have always been essential principles of Ursus' philosophy.

In our plants we have chosen to use only energy from renewable sources and we work to ensure that each new project has a reduced environmental impact.

A commitment necessary today to safeguard the world of tomorrow, that of our children.

## ISO CERTIFICATIONS

The ISO (International Organization of Standardization) attests our adherence to international standards and our strategic aids aiming at reducing cost by minimizing waste, errors and optimizing internal productivity.

**COMPANY WITH  
MANAGEMENT SYSTEM  
CERTIFIED BY DNV GL**  
= ISO 9001 =  
= ISO 14001 =  
= IATF 16949 =

## ALLOY ADJUSTABLE CENTRAL KICKSTAND DESIGNED FOR E-BIKES

POWER is the strongest central kickstand that URSUS has made in their 50 year history. The POWER stands at a 50-degree wide angle, which offers great stability. It can hold 55 kg making it the ultimate kickstand for your top-level e-bikes or cargo bikes. The design of the POWER was inspired by the MOOI; clean and smooth lines to match the looks of your bike without losing any of the strength. The all new POWER is the strongest, most stable central kickstand currently available.

## FEATURES

- Great stability
- Extra wide opening angle
- Suitable for 26" and 28"
- Adjustable length on the back side of the foot
- Steel components with corrosion resistance up to 720h in salt spray test

E-MTB BIKES

## FEATURES

- Assembling on OVAL chainstays
- Steel components with corrosion resistance up to 720h in salt spray tests
- Perfect stability
- No tools to adjust the lenght
- Adjustable for:  
335 mm: 24", 26" end 28" bikes  
355 mm: 27.5", 28" end 29" bikes

## Article codes

seat clamps

609D

NEW

200 pcs. 14 kg

- Alloy seat clamp with lever.
- Finish: matt black painted. Sizes 31.8 and 34.9 are also available in black anodized finish on request.
- Size ø: 25.7 mm / 31.8 mm / 34.9 mm

609D26V00		Seat Clamp with lever 609D, black ø 25.7 mm
609D32V00		Seat Clamp with lever 609D, black ø 31.8 mm
609D35V00		Seat Clamp with lever 609D, black ø 34.9 mm

609V

NEW

400 pcs. 15 kg

- Alloy seat clamp.
- Finish: matt black painted. Sizes 31.8 and 34.9 are also available in black anodized finish on request.
- Size ø: 25.7 mm / 31.8 mm / 34.9 mm / 38.1 mm

609V26B01		Seat Clamp 609V, black ø 25.7 mm
609V32V00		Seat Clamp 609V, black ø 31.8 mm
609V35V00		Seat Clamp 609V, black ø 34.9 mm
609V38V00		Seat Clamp 609V, black ø 38.1 mm

601D

200 pcs. 13,5 kg

- Alloy seat clamp with lever.
- Finish: matt black painted.
- Sizes ø: 28.6 / 31.8 / 34.9 mm

601D28V00		Seat Clamp with lever 601D, black ø 28.6 mm
601D32V00		Seat Clamp with lever 601D, black ø 31.8 mm
601D35V00		Seat Clamp with lever 601D, black ø 34.9 mm

601V

400 pcs. 14,7 kg

- Alloy seat clamp.
- Finish: matt black painted.
- Sizes ø: 22.2 / 28.6 / 31.8 / 34.9 mm

601V22V00		Seat Clamp 601V, black ø 22.2 mm (M6)
601V28V03		Seat Clamp 601V, black ø 28.6 mm
601V32V03		Seat Clamp 601V, black ø 31.8 mm
601V35V13		Seat Clamp 601V, black zn ø 34.9 mm

603D

200 pcs. 11,4 kg

- Alloy seat clamp with lever.
- Finish: matt black painted.
- Sizes ø: 28.6 / 31.8 / 34.9 mm

603D28V01		Seat Clamp with lever 609D, black ø 28.6 mm

# R40

MR40F-100X9-D | Front hub R40  
MR40R-130X10-B-C | Rear hub R40 - Campagnolo  
MR40R-130X10-B-D | Rear hub R40 - Sram  
MR40R-130X10-B-S | Rear hub R40 - Shimano

Serie URSUS ROAD R40
Field of application Road
Color Black, Velvet Touch
Average weight 130 g (front) / 262 g (rear)
Hubshell material Aluminum Al 7075 ergal, made CNC
Axle fixing Quick release
Ball bearings SKF ABEC 5 Ball bearings, equipped with low friction seals, a low friction grease and a special cage.
Braking system Rim brake
Freehubs system 3 pawls system - engagement angle 12°
Flanges diameter Radial (front) / radial-47.5 mm (rear)
Hub width 100 mm (front) / 130 mm (rear)
Number of holes 20 (front) / 8-16 (rear)
Holes size straight pull spokes d = 2mm
Compatibility Shimano, Sram, Campagnolo, Campagnolo Ekar

# RD30
